Only the title sounds interesting.. At first I wasn't sure what to expect, considering the price. I was reading reviews and thought to myself, oh wow, this sure is not much auf playtime you get for the money you invest into this game, but as to my surprise I quickly fell in love with this game, it combines so many elements of gameplay, the music/soundeffect, story, and the physic engine are just greatly made,

Music 8/10

Story 8.5/10

Gameplay 7/10

Graphic 4.75/10

Don't be intimidated by the rating i gave for the graphic elements of this game, the thirll of learning the story, getting through these levels, and the extremely good voice acting are making this game into one of my favorites.

And not to forget the fact that this game is filled with cute little easter eggs.

Overall i really recommend this game to people who like Fantasy-Adventure Games that also have a story containing more than just unrealistic rubbish.
